## Insecticides

7 PRODUCTS

### Karate 5 EC

250–300 mL/ha

**Cutworms** · Synthetic pyrethroid to kill cutworms and other Lepidoptera.

### Karate Zeon

200 mL/ha

**Cutworms** · Capsule suspension synthetic pyrethroid, with a longer-lasting effect.

### Ampligo 150 ZC

120 mL/ha

**Lepidoptera, bollworms** · Insecticide for the control of Lepidoptera, encapsulated for longer protection and efficacy.

### Eminent Super

100 g

**Lepidoptera, bollworms** · Broad-spectrum insecticide for the control of Lepidoptera pests (fall armyworm, bollworms).

### Aphox

300–500 mL/ha

**Aphids** · Contact action against yellow aphids in sugar cane.

### Actara 25 WG

400 g/ha

**Aphids** · Systemic insecticide for the control of aphids. It can be applied as a drench into the cane early in its life.

### Amitraz

300 mL/ha

**Red spider mite** · Acaricide for the control of spider mites.

## Fungicides

3 PRODUCTS

### Propiconazole

500 mL/ha

**Wilt, smut and rust** · Systemic triazole (DMI) fungicide that works by enzyme inhibition.

### Amistar Top 325 SC

500 mL/ha

**Wilt, smut and rust** · Combines preventive, systemic, translaminar (it moves across the leaf tissue) and curative properties.

### Copper Oxychloride 85 WP

500 g/ha

**Leaf damage** · Contact fungicide to apply when the cane has suffered severe damage, such as hail.

## Growth regulator

1 PRODUCT

### Moddus

1 L/ha

**Within 70 days of harvest** · Plant growth regulator (PGR) that inhibits the production of gibberellic acid. Used correctly, it shortens the internodes of sugar cane.

### Read the label.

Always read and follow the product label. The label is the legal instruction for use.
